

PRODUCT-DETAILS

PSE250-600-70-1

PSE250-600-70-1 Softstarter - 250 A - 208 ... 600 V AC

General Information	
Global Commercial Alias	PSE250-600-70-1
Extended Product Type	PSE250-600-70-1
Product ID	1SFA897113R7001
ABB Type Designation	PSE250-600-70-1
EAN	7320500515037
Catalog Description	PSE250-600-70-1 Softstarter - 250 A - 208 600 V AC
Long Description	The softstarter PSE250-600-70-1 has a rated maximum operational current of 250 A with an operating voltage span from 208600 V AC. The rated control voltage is between 100250 V AC at 50/60 Hz. PSE features a two-phase control with a soft start and stop through a voltage or a torque ramp. It has built-in bypass for easy installation and energy saving. A RUN, TOR, and Event signal is available from a relay output in NO (normally open state). The PSE has functions such as current limit, kickstart, analog output, EOL, underload, and locked rotor protection. To interact with PSE, it has an Illuminated display that uses symbols to become language neutral. As an option, you can add an identical external keypad with a rating of IP66. There are three ways to communicate with PSE. It can be done by hardwire inputs Start/Stop or by Reset of fault. Another popular option is the built-in fieldbus communication Modbus RTU. You can also use an external adaptor and a Fieldbus plug. PSE is a true general purlpose softstarter. It's a perfect balance beltween high starting capacity and cost effiliciency. Very suitable for small to medium-sized three-phase motors with nominal currents from 18370 A. Typical applications are, for example, pumps, fans, compressors, and conveyors.
